

Curriculum Vitae

Giulia Fresca

Engineer – Journalist

updated on November 12, 2016

Short Bio:

A polyvalent professional with a superb track record in managing complex and functional projects in various areas.

More than twenty years of experience in engineering, operating in Europe and Asia through the diplomatic recognition of the Graduate Certificate in Islamic countries, to which were added the task of Research at the Department of Physics of the University of Calabria and the journalistic competence about the scientific communication, with particular attention to Research, Innovation and Technology Transfer.

Euro-Projects Designers expert, with the Project Management ability, fundamental "know-how" to access funding programs at European level. Recognized professional who has always worked in the branch, managing directly the planning, construction supervision and "problem solving", assuming full responsibility for the success of the project objectives. An expert able to take challenging and diverse roles, which enjoy the confidence of important Commissions and that, in these years, has created an exceptional network of relationships with universities, companies and technical experts in every area.

His technical competences have been recognized to be City Councillor responsible for "Public Works" and the "Sustainable Mobility" the City of Cosenza during the period from 21th May 2015 until 11th February 2016.

Highlight:

-Responsible of all activities pertaining to the engineering services,

Key Responsibilities:

- Review and coordinate design drawings and specifications to ensure compliance with project requirements.
- Perform and implement value engineering proposals on the design.
- Assist in preparing the Quality Plan including organizational chart, work program schedule, material acquisition plan, shop drawings plan, subcontracting plan, general method statement, inspection and testing plan, safety plan, forms and checklists.
- Interface management with the client and consultant representatives, local authorities, and interface contractors.
- Developing procurement strategies for subcontractors/ suppliers in terms of packaging and scope of works.
- Monitor the site progress and lead the construction team to ensure proper implementation on site in compliance with project schedule, quality standards and local regulations.
- Identifying bottlenecks, resolving technical problems in design and construction.

Here it follows the specific work experience.

Date and city of birth	24.12.1971 – Manfredonia (FG)
N.I.N.	FRS GLI 71T64 E885V
V.A.T Number	02120420787
Insurance	Professional Indemnity Insurance – Elite Insurance Company Ltd n°2016/R/169227 (deadline 06/09/2017)

Primary field/ secondary	Engineer / Journalist and writer
Current role	Engineer Project Manager Supervisor and Coordinator - PhD University Researcher Journalist and Scientific Communication Consultant
Date	From 25.03.1996 onwards
Core business	Fresca's "Engineering - Technology - Architecture" since 1996 <i>Consultant engineering firms acknowledged and in agreement for "Internship and orientation" with the University of Calabria (Convention N°33743 – 23.10.2008)</i>
Management responsibility	Project Manager Supervisor - Senior Engineer – Fire Engineer
Work areas	Civil/Structural and Environmental, Industrial, MEP Systems, Installation activities, Information technology and Consultancy services.
Date	From 2015 onwards
Position held	Expert Advisor for the "Design and certification infrastructure and plant engineering STAR source" of the realization of X-Ray backscatter Thomson Source (TBS) called STAR under the MaTeRiA Materials project, technologies and advanced search Code ID PONa3_00370 - CUP I21D11000060007 "
Public Authority	National Interuniversity Consortium for the Physical Sciences of Matter (Consorzio Nazionale Interuniversitario per le Scienze Fisiche della Materia – CNISM)
Date	30.10.2013 onwards
Position held	Research assistant
Title of qualification	Winner of public competition announced by the Department of Physics, University of Calabria, prot. N.3112 of 09.16.2013, to detect and proven with particular specialization for the needs of "Technical analysis, testing and characterization Stirling engine used as a cogenerator with comparison with the various devices of this type present on the market today" (OR 5:06) under the PON01_01840 Research project "Microperla"
Public Authority	Department of Physics, University of Calabria
Date	September 2013 onwards
Position held	Expert consultant and technical-scientific director in PON01_01840 program - Project "Microperla" - Research - Renewable energies program and Micro-Cogeneration for Agribusiness
Public Authority	Calpark - Science and Technology Park of Calabria - Consortium Company (Parco Scientifico e Tecnologico della Calabria)
Date	19.10.2011 onwards
Position held	Research assistant
Title of qualification	Winner of the Competition for Research qualifications and examinations in the Department of Mechanical Engineering of the University of Calabria on the Research program in agreement with Elasis (Project / CDR S216020005 - 81/2011) "techniques to calculate the intake systems simulation air motor, supported by specific experimentation "and in particular" bench testing of a motorcycle engine characterization and analysis of mechanical and thermal power produced in the various operating conditions "
Public Authority	University of Calabria - Department of Mechanical
Date	2011 – 31.12.2014
Position held	Expert consultant
Title of qualification	Professional task of specialist advice within the Project of Constitution and expansion of Regional Innovation Poles - Innovation Pole "Technology of Materials and Production"
Public Authority	Calpark - Science and Technology Park of Calabria - Consortium Company (Parco Scientifico e Tecnologico della Calabria)
Private Company	
Position held	Chief Executive Officer - CEO
Date	from 26.05.2000 onwards

Company	Engineering World Web s.r.l. (E.W.W. s.r.l.) - REA CS-2000-25181 Service company in technical and IT sector. Support activities for research and technological innovation, research and development including the realization of advanced technological services.
Areas	Architectural activities, Engineering, security technology, implementation and management of advanced technology systems for energy efficiency and for environmental protection, technology transfer for the production, processing and treatment materials. Service and support to research and technological innovation. construction activity and real estate
Position held	Project Manager – Responsabile Engineering Departmen
Date	April 2015 onwards
Company	UP Consulting Group – Integrated Services & Value - Expo2015 Area - Rho
Areas	Engineering department responsible for performing technical and managerial activities in the planning, design and implementation.
Position held	Senior Project Engineer – MEP Coordinator
Date	June 2013 – February 2014
Company	Sohar International Development Company L.L.C. Sohar (Sultanate of Oman)
Areas	Coordinator of MEP engineering works for construction of Hotel 5 Stars “Radisson Blu Hotel & Resort“ in Sohar – Main contractor: Sohar International Developer Company LLC; Consultants: Engineering Innovation Design & Consulting; M&E Contranctor: Oman Shapoorji Construction Co. LLC – importo lavori 32 M\$
Position held	Senior MEP Engineer
Date	June 2013 – February 2014
Company	Azahar & Le Gardenie – Middle East Landascape Dubai - Abu Dhabi (United Arab Emirates)
Attività	Supervisor Landscape Work Irrigation, MEP swimming pool e weater features for Hotel 5 Stars “Radisson Blu Hotel & Resort“ in Sohar – Sultanate of Oman
Position held	Consultant expert with technical warrant of project manager, project engineer, site engineer and assistance to the research project and acquisition of private commissions / public in the UAE and the Sultanate of Oman
Date	October 2013 onwards
Company	GARC SpA Address: Carpi (MO) - Dubai (United Arab Emirates) Company of civil and industrial construction sector, energy, transport infrastructure, aqueducts, sewers, sewage treatment plants (private and public)
Position held	Consultant expert with technical warrant of project manager, project engineer, site engineer and assistance to the research project and acquisition of private commissions / public in the UAE and the Sultanate of Oman
Date	October 2013 onwards
Company	C.I.E. Costruzioni Internazionali Euromediterraneo Address: Roma Company of civil and industrial construction sector, energy, transport infrastructure, aqueducts, sewers, sewage treatment plants (private and public)
Position held	Consultant expert with technical warrant of project manager, project engineer, site engineer and assistance to the research project and acquisition of private commissions / public in the UAE and the Sultanate of Oman
Date	October 2013 onwards
Company	Terrieri Edilservice s.a.s. Address: Cosenza Companies of civil construction industry, roads, aqueducts and sewers (private and public)
Position held	Executive director- Senior MEP Engineer
Date	2005 - 2006
Company	EcoTec SpA Milano – Paola (CS) Company for energy and facilities (private and public)
Position held	Judicial Technical Director on behalf of the District Anti-Mafia Directorate - Chief Judge Catanzaro - Decree (art.321.ss CPP) n° 42/2003 RMC
Date	2003 - 2006

Company	Peluso Costruzioni s.r.l. Spezzano Piccolo (CS)
Activity	Technical management, construction management, Accounting of major projects in the contract to the firm forced by court order (better specified below)
Position held	Executive director - Senior MEP Engineer
Date	2000 - 2006
Company	Euroimpianti di Fortino Andrea Rende (CS) Company for energy and facilities (private and public)
Position held	Project Manager - RUP
Date	1999-2000
Public Authority	Presidency of the Council of Ministers Ufficio Roma Capitale – Giubileo Extra Lazio L.270/97
Activity	Project Manager - RUP for works of consolidation, restructuring, recovery and restoration of the convent of Santo Umile Bisignano (CS) for the reception of pilgrims in the Jubilee routes and pilgrimages outside of Lazio: "The ways of the Pilgrims" - L.270 / 97
Membership e Partnership	
Position held	Member of the Technical Scientific Committee of the Foundation "Attilio and Elena Giuliani" 15 february 2016 onwards
Authority	Fondazione "Attilio ed Elena Giuliani" onlus - Roma, Via V.Veneto
Position held	Component from 2013 onwards of "Energy-Plant" Commissions, "Urban Planning and Environment", "Innovation", "Mechanics",
Authority	Order of Engineers of the Province of Cosenza
Position held	Component from 2015 onwards
Authority	Provincial Center of Urban Studies of Cosenza
Position held	Technical Consultant from 2013 onwards
Authority	Consortium "L'Airone - Gas & Oil" , network organization for the design, management and maintenance of technological systems. Registered office: Napoli
Position held	Partner & Project Manager Consultant from 2007
Authority	ESAE srl - Energy Savings for Agriculture and Environment, Spin-off University of Milan, specializing in CO2 reduction globally University of Milano
Position held	Component from 2006
Authority	National Committee "The Solar Energy History" (CONASES) established by decree of the Ministry of Heritage and Cultural Activities April 27, 2006 and formally inaugurated in the presence of Secretary of State, Andrea Marcucci July 24, 2006. Roma
Position held	Member of the Executive Committee since 2006
Authority	"Group for the Solar Energy History "(GSES) founded on the initiative of experts and scholars from various disciplines, members of academies and scientific societies, such the International Solar Energy Roma
Position held	Team Advisor e Professor Responsabile Marketing from 2010
Authority	Unical Racing Team (Unical Reparto Corse) participant in the Formula SAE Italy promoted by the ATA (Associazione Tecnica dell'Automobile) and SAE International (Society of Automotive Engineers) Università della Calabria - DIMEG
Position held	Member from 2010
Authority	Regional Coordination Committee of the Association of the Automobile Technology (A.T.A.) – sez. Calabria
Position held	Partner and Technical Consultant from 2007

Authority **Malaysian Italian Chamber of Commerce and Industry, M.I.T.C.C.I.,**
Sede: Kuala Lumpur, Malaysia

Qualifications

Date from July 1999 onwards

Title of qualification **Fire Engineer** referred to 7/12/84 Law n° 818 et seq. D.M.25 / 03/2005 - Update of art. 7 of D.M. August 5, 2011 and subsequent amendments
Registration Ministry of Interior of Italy cod. **CS02321100499** ;

Authority Interior Ministry - Department of the public rescue and civil defense - National Corps of Firemen

Data 30.10.2013 onwards

Title of qualification **Winner** of public competition announced by Department of Physics, University of Calabria, prot. N.3112 of 09.16.2013, aiming to identify a person in possession of particular and proven expertise to meet the needs of "Technical analysis, testing and characterization Stirling engine used as a cogenerator by comparison with the various devices of this type present at on the market today "(OR 5:06) within the project Research PON01_01840 "Microperla"

Authority Università degli Studi della Calabria - Dipartimento di Fisica

Data 04.01.2014 onwards

Title of qualification **Winner of the Competition audience PhD in Physical Sciences and Technologies, Chemical and Materials Engineering**, in agreement with the CNR, XXIX Cycle, with administrative headquarters at the University of Calabria (Rector's Decree 2138 of 2013)

Research Topics: Facilities and Innovative Instrumentation

Research project title: "Technology Transfer: Scientific Infrastructure and Facilities, Management and valorization"

Authority **PhD in Physical Sciences and Technologies, Chemical and Materials Engineering, in agreement with the National Research Council at the University of Calabria - Department of Physics**

Date 11.12.2012

Title of qualification **Winner** to public contest for admission to 10 seats for the PhD Course in Mechanical Engineering of "Pythagoras" School of Engineering Sciences - Cycle XXVIII with administrative headquarters at University of Calabria, published in the Official Gazette 4 th special series n .80 of 12/10/2012 of research project entitled: "The Stirling engine technologies in small cogeneration systems for industrial and service sectors"

Authority "Doctoral School Pitagora" - University of Calabria

Data 21.02.2012

Title of qualification **Winner** of Competition for Research qualifications and examinations in Department of Mechanical Engineering of University of Calabria on Research program in agreement with Elasis (Project / CDR S216020005 - 81/2011) "techniques to calculate the intake systems simulation air motor, supported by specific experimentation "and in particular" bench testing of a motorcycle engine characterization and analysis of mechanical and thermal power produced in various operating conditions"

Authority University of Calabria - Department of Mechanical

Data 02.07.2013

Title of qualification **Enabling Project Manager**, Senior Project Engineer, Site Engineer and Technical consultant specialist in Islamic countries. Diplomatic recognition of the degree certificate and translation into Arabic of a professional title.
Recognition of technical skills and knowledge of the rules adopted by the International Federation of Consulting Engineers (FIDIC)

Authority Italian Embassy in Muscat (Sultanate of Oman) (No Reg. 171/2013)

Data dal 2008

Title of qualification **Euro-planning**
Qualified professional in consulting, design and expert of major European programs and euro-planning techniques aimed at obtaining European and international funding in the logic of participatory planning with particular reference to the sectors of engineering, architecture, restoration, urban planning, engineering and energy resources

Authority European Qualification Framework (EQF)

Data 2001

Title of qualification **Enabling test-verifier of installations**

Authority Chamber of Commerce of Cosenza

Data 03.10.1997
 Title of qualification **Qualification** to the Safety Coordinator for Planning and Co-ordinator for execution of works by Italian D.L 626/94, D.L. 242/96 and D.L.494 / 96 (and subsequent mod and int.) Following an attestation of attendance successfully the course of the security specialization and recognition of professional qualifications,
 Authority Ordine degli Ingegneri della Provincia di Cosenza

Data 16.01.1996
 Title of qualification **Enabling Exercise Professional Engineer**
 Authority University of Calabria

Enrollment

March 2015 Enrollment in European Register of Euro- Projects Designers (EUPF Register of EU-Projects Designers and Managers - Project Europe Forum Foundation) organization based in Amsterdam officially registered in the EU Transparency Register.

Marzo 2015 Enrollment into Short List of Experts in "waste, energy, climate change" the Department Planning and Finance of Basilicata Region

February 2015 Enrollment into Short List of the Public Works Department Infrastructure of Calabria Region

08.08.2013 Enroll at the TT Experts Calabrialnno - Integrated Project Regional Development (PISR) making use of partnerships between Fincalabra S.p.A. and AREA Science Park in Trieste.

2010 Enrollment in the List of the Special Commissioner Delegate Calabria Professionals for the implementation of actions for mitigation of hydrogeological risk in Calabria region envisaged in program signed on 25.11.2010 with the "technical study engineering code - IT02120420787"

27.03.2006 Registration in the Regional Inspectors Static, pursuant to Law 11.05.1971 n.1086 for categories: 1) civil and industrial buildings 2) roads, highways, bridges, viaducts, railways 3) aqueducts, pipelines, etc. 4) technological systems.

2001 **Inclusion in the List of testers-verifiers** of Chamber of Commerce of Cosenza at No. 428, pursuant to art.2 of DM 6 April 2000 for following sections set out R.D. 23/10/1925 n ° 2537:
 A- The production facilities, transport, distribution and use of electricity within the buildings from the point of delivery of the energy supplied by the distributor;
 B- The radiotelevisivi and electronic in gender, the antennas and the installations of protection atmosferiche;
 C- The heating and of climatizzazione azionati of liquid fluid, aeriforme, gassoso and of any nature or kind;
 D- The sanitary systems as well as those of transport, of treatment, of use, of accumulation and of consumption of water to the interior of buildings from the point of delivery supplied by the distributor;
 E- The installations for the transport and the utilization of gas to the liquid state or aeriforme of the buildings from the point of delivery of the gaseous fuel supplied by the distributor;
 F- The lifting systems of people or of things for means of elevators, freight elevators, escalators and the like;
 G- The fire protection systems.

1999 **Registration at Ministry of Interior of Law 7.12.84 n°818 e succ. D.M.25/03/2005**
 cod. CS 2321 I 0499

25.03.1996 **Registration in the Order of Engineers of Cosenza's Province** with n° 2321 in Section A to Presidential Decree No. 328 of 05/06/2001
 Sectors: Civil and Environmental - Industrial - Information

1996 Enrollment to the National Social Security Fund and Support for Engineers and Architects Freelancers - Inarcassa, Serial N°620036

1996 Enrollment in the Register of Technical Experts (CTU) and the Legal Proceedings and Bankruptcy Court of Cosenza with No. 2516.

Education

Date March 2015
 Title of qualification **Master in "Europrogettazione 2014-2020"**
 Institution of Education Europe Innovation Cube Business School - the economic and social research center, registered Anagrafe of the National M.I.U.R. Searches Ministry of Education, University and Scientific Research..

Data 26.10 1995
 Title of qualification **Degree in Mechanical Engineering (Master's Degree to Ministerial Decree No. 270/2004 Art.13 c.7)**
 Thesis: "Analysis of Cycle-Resolved Laser Doppler Velocity measurements in a single cylinder optical access." Speaker: Prof. Ing. Sergio Bova
 Final vote: 101/110
 Institution of Education University of Calabria - Faculty of Engineering

Data July 1989
 Title of qualification building surveyor
 Final vote 60/60
 Institution of Education Technical Institute for Surveyors - Vibo Valentia

Expert performance driving license

European driving license type B

Computer skills

Excellent knowledge of computer hardware technologies. Excellent knowledge of the main engineering calculation software, technical design, GIS, and Web technologies - Excellent knowledge of communications systems Social

Autocad, Pro-Engineer, ArchiCAD, Spring, Edisap, MSC Nastran, Matlab, Simulink, Origin, technical electrical design software, thermodynamics and photovoltaic, Office package and commonly used software for graphics, database, and Data Computing.

Knowledge of MS-Dos programming languages, Pascal, C ++, HTML, Flash
 Knowledge of PLC and robotics implementation

Unical Dipartimento f Phisic - "Design and certification infrastructure and STAR source plant "within the realization of the X-ray source by Thomson backscattering (TBS) called STAR under the MaTeRiA Materials project, technologies and advanced search Code ID PONa3_00370 "
 Activity: Expert consultant
 Total project amount: 9 Mln €

Unical CNISM - "Technical analysis, testing and characterization of Stirling engine used a cogenerator by comparison with various devices of this type on market" (O.R. 5:06) under PON01_01840 Research project "microPerla"
 Activity: Research assistant
 Total project amount: 15 Mln €

Vibo Valentia Project to recover and reuse the former prison of Vibo Valentia
Activity: Feasibility Study, Final Design
Total project amount: 4Mln €

Repubblica del Gabon

Port Gentil Construction du Paradise Hôtel, 4 étoiles
Committente: Monsieur Richard Chami, Représentant légal Paradise Hôtel s.ar.l in Libreville
Category: Construction Hoteliers, Plant
Activity: Project Engineer MEP e Structural
Total project amount: 18 Mln \$

Sultanate of Oman

Sohar "Radisson Blu Hotel & Resort" 5 star in Sohar
Main contractor: Sohar International Developer Company LLC; Consultants: Engineering Innovation Design & Consulting; M&E
Contractor: Oman Shapoorji Construction Co. LLC
Activity: Project Engineer MEP Coordinator
Total project amount: 32 Mln \$

Duqm "Cement Terminal at Duqm"
Main contractor: Raysut Cement Company (SAOG) and Al Nahdha Overseas LLC
Categoria: Impianti industriali speciali
Activity: Project Engineer to Structural Design, Engineering & Construction
Total project amount: 24 Mln \$

Duqm "Park Inn Hotel Duqm" in Duqm City
Client: MUSSTIR LLC Holding Company; Consultant: Pentago Spowers International Main Contractor: Carillion Alawi LLC
Client: MUSSTIR LLC Holding Company and Al Nahdha Overseas LLC
Category: Construction Hoteliers, Special Plant, Landscape
Activity: MEP Project Engineer
Total project amount: 45 Mln \$

Sohar "Radisson Blu Hotel & Resort" 5 star in Sohar
Client: Azahar Middle East Landascape L.L.C. (Abu Dhabi)
Activity: MEP Engineer and Site Supervisor for swimming pools, fountains, landscaping and exterior work
Total project amount: \$ 2.5 Million

Sohar "Renovation of engineering offices" della Sohar Aluminium
Proposal: Al Nahdha Group – Azahar & Le Gardenie Middle East Landascape (Abu Dhabi)
Total project amount: Project Engineer progetto esecutivo

Muscat Integrated "solar-waste management biogas cogeneration"
Client: Italian Ambassador in Oman - Muscat headquarters. IF. Paola Amadei.
Activity: Project Engineer of the Feasibility Study
Total project amount: \$ 40.0 Mln

Sohar "Integrated energy system for solar thermal power plant" del Radisson Blu Hotel and Resort in Sohar
Client: Al-Nabri Global Investment LL
Activity: Project Engineer
Total project amount: 1,5 Mln \$

Engineering Patents
Sez. n°5

Boa Thermo-demineralisation (Patent No. MI2009 A001196)

The system will produce desalinated water from renewable sources, it is a compact, self-contained system, scalable to taste. Thanks to management of potential energy inherent irradiance and water in which will be immersed, through the cross-circuiting between internal and external exchangers, creates the conditions for operating the evaporation and condensation, and then the collection (by percolation on the inner side of the heat exchangers) and conveying outside.

Thermal desalination Sedentary (Patent No. MI2009 A001198)

Device able to produce desalinated water, to start out at fair successive additions, which depend on destinations and uses. It is mainly driven by renewable sources: solar, direct and diffuse, exploits the temperature differentials created within an enclosed space and insulated, supported by a cross-movement between the energy from radiation and the heat content of the subsurface. The device reaches full autonomy using wind power and photovoltaic for hydraulic circuits necessary

Other minor works are not mentioned in this Act.

Additional information

Communication skills	Dynamic, determined, optimistic, professional. Rapporteur and moderator at many events, conventions and conferences. communication and interpersonal skills acquired during the experience of head of communications.
